## OKMULGEE QUIET

Okmulgee, Ok., Nov. 16.—Clinging with his arms around his dead father's neck and crying piteously "please come and help me; father is killed!" Frank Klaber, 12 years of age, stayed by the side of his dead parent though in instant danger of death from the hail of lead during the battle Sunday afternoon here between the negro, Newt Deckard, and the officers. The boy's father, Henry Klaber, assistant chief of police of Okmulgee, and two other men had been shot down on his side, but he still remained oblivious to the danger until a friend rushed in and led him away from the dangerous fire of the infuriated negro.

This occurred during the sensational fight in which Newt Deckard killed four men and wounded eight others before he was himself mortally wounded and his body thrown back in the flaming ruins of the house he had barricaded himself in and had been forced out by fire.

Tonight four men are dead and eight others more or less seriously wounded as the result of an attempt to arrest Deckard, who, in resisting, very nearly precipitated a race war. The bodies of W. E. Robertson, sheriff of Okmulgee county; Henry Klaber, assistant chief of police; Felix and Rufe Chapman are in the morgue awaiting burial, while the charred remains of the negro murderer were placed in a rude coffin and will be sent to the father, who resides in Tatum county, Texas. The remains of the negro are almost unrecognizable.

And through all this the town of Okmulgee has proved the excellence of its citizenship by a dreaded tranquility on the part of both whites and negroes today. There is not a circumstance to indicate race feeling over the unfortunate battle of yesterday, which laid low two of the most popular officers of the county, two respected negroes and caused eight others to suffer wounds, all at the hands of one desperate negro, who, crazed with drink, swore he would never be taken alive.

## GOES TO DEATH WITH SONG ON LIPS.

Carthage, Mo., Nov. 16.—While singing "Will There Be Any Stars in My Crown," George Workan, a miner, was struck on the head with a boulder at the Big Fly mines near Neck City this afternoon and died instantly.

## GOMPERS

Denver, Nov. 16.—President Samuel Gompers, at the afternoon session today of the convention of the American Federation of Labor, declared that if he were found guilty and fined in the contempt proceedings against him at Washington, he would go to jail before he would pay his fine or before he would allow the federation to pay any fine for him.

This statement was made by Mr. Gompers during the discussion of the report of the committee on the treasurer's report. The committee recommended that immediately following adjournment of the committee, the executive committee shall take up the proposition of placing its funds where they may be removed from danger of attachment. The report brought out a political discussion in which several members declared themselves in favor of the formation of an independent political party.

## Standard Oil Prospers.

New York, Nov. 16.—Directors of the Standard Oil Company of New Jersey, which is the parent, or holding company of the oil combine, today declared a quarterly dividend of \$10 per share. This was unchanged from the dividend paid in the corresponding quarter of last year and makes a total of \$40 in dividends to be paid this year. This has been the rate since 1904. The company has 983,333 shares outstanding.

Legal blanks of all kinds kept in stock at this office.

## BRYAN GOES TO MEXICO

Dallas, Tex., Nov. 17.—Hon. W. J. Bryan, late democratic nominee for the presidency accompanied by Mrs. Bryan, passed through the city last night on the Katy Flyer, en route to Mexico. It was thought that only a few of the local leaders were aware of the Nebraskan's movements, but for some time before the train came, democrats and admirers of the leader of the minority party began to assemble at the station, and when Mr. and Mrs. Bryan stepped off the train they found it very difficult to make their way through the host of friends who pressed to greet them and shake their hands to make their way to the Katy dining hall.

## Has Lost Much Weight.

Mr. Bryan looked weary. His face has a peaked aspect. He carries less weight than his Texas friends ever saw him carry. "You may quote me as saying that I am glad to be back on Texas soil once more," he said to a reporter. "I shall be in San Antonio tomorrow. From there I go to Corpus Christi for a few days; after that to Monterey. I can not say how long I shall remain in Monterey. At present I have no plans beyond Monterey, nor do I know how long I shall sojourn in Mexico. Texas is a great state. She did herself proud in the recent election."

## Make Demand for Speech.

While the party were at table, the crowd, which continued to grow all the time until faces were pressing against the glass of the windows on the outside as thick as they could be set in them in the lower parts of the window frames, remained silent. When Mr. Bryan drew the napkin across his face and straightened up as if he were through, the crowd as if it had been waiting for that moment on one accord called "Bryan! Bryan! Speech! Speech!" and as the orator rose the cry was changed to, "Get up on a chair! Get on the table, don't mind the dishes!"

"I have been having so much cheer since my arrival here that there is no more coming to me," said Mr. Bryan.

"That's all right, get up on the chair!" was repeated by many voices. Mr. Bryan mounted the chair which he had shoved back from the table and proceeded:

## Proud of Old Nebraska.

"Ladies and gentlemen; I think, if I ever get discouraged, that this would be as good a place for me to go as I could find, for Texas is always faithful, and I am glad to be among you. But Nebraska is not to be sneezed at this year. We are very proud of Nebraska. For some years the republicans have been circulating a report that I could not carry my home state, city or precinct, but they did not have time to explain that Lincoln is a very strong republican city, having a majority of 1,500 to 2,000, and that Lancaster county is between 2,500 and 3,000, and because I could never get but one-third of the vote, they made fun of me. But this year we carried the precinct by a little more than two to one, or 112 to 54; the city of Lincoln by 759 and Lancaster county by over 120, and I am prepared to declare that the republicans of Nebraska are the best I know, that the republicans of Lincoln are the best in the state of Nebraska, and that those in my voting precinct are the best ones in that neighborhood.

## Declines to Discuss Defeat.

"I am not going to discuss the causes of this defeat, because I have not found them out myself. I am satisfied we were defeated, but just how it came about I do not know. I think every member of the national campaign committee would have made affidavit the night before the election that we would carry it with a landslide, and I would not impeach the integrity of them. Just what the cause of the defeat was I am not fully satisfied, and I am investigating as rapidly as I can. (Applause.)

## Denver Platform Sound.

"I will say that our platform

adopted at Denver is sound and that it will be triumphant in this country, and, as I said before that election, during the last twelve years we have been able to compel the republicans to adopt several of our ideas, and I shall be very much mistaken if we do not compel them to adopt them all. I am just as content to remain a citizen as I would be if I were in the presidential chair, as long as we can make them adopt our idea.

"I want to thank the good people of Texas for the support they have given me, and I am glad to get among them. (Applause.) I am not very old, and I shall come down here as often as I can and meet you, unless you get out an injunction restraining me from crossing the state line."

When the time came for Mr. and Mrs. Bryan to make their way back to the train, the jam on the platform was fiercer than when they disembarked. Mrs. Bryan facetiously

## BIG SUM ON RACES.

France the Leader in Bets That Have Been Made.

Paris, Nov. 14.—According to the figures of the minister of agriculture, just published, \$62,776,180 was wagered on horse races in France last year.

Since 1891, when the bookmaking was suppressed and "pari-mutuel" betting inaugurated, the exact amount wagered is of official record as 4 per cent of the gross receipts are turned over to the state for public charity and the encouragement of breeding.

Last year this 4 per cent amounted to \$2,531,067. Of course clandestine bookmaking among the big betters still goes on, and the ministry complains that it is on the increase, as he figures for the first seven months of the current year already show a decrease of 3 1-4 million dollars in pari-mutuel receipts. He asks for more stringent legislation to prevent illegal betting.

The cost of operating the system is about 6 per cent, so that after deducting another 4 per cent for the state about 90 per cent of all the money wagered is returned to the lucky pickers of the winners.

## Wheels Industry Started.

Chicago, Ill., Nov. 16.—After having closed for more than two weeks, and previous to that time for several months running intermittently, the plate mills and the light rail plant of the Illinois Steel Company in South Chicago, this morning were reopened. Five hundred men who had been out of steady employment were thereby put to work. From an authoritative source it was learned that since the election the business of the Illinois Steel Works had increased materially in volume and that it was thought that the two plants set to work today would be kept in operation.

Read the ordinance governing occupation license published in today paper and be ready for me when I come to see you.

W. B. JONES, City Clerk.

It isn't so difficult to strengthen a weak stomach if one goes at it correctly. And this is true of the heart and kidneys. The old fashioned way of dosing the stomach or stimulating the heart or kidneys is surely wrong! Dr. Shoop's first pointed out this error. "Go to the weak of ailing nerves of those organs," said he. Each inside organ has its controlling or "inside nerve." When these nerves fall then those organs must surely falter. This vital truth is leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. A few days test will surely tell! Sold by G. M. Ramsey 29-dw-1mo

"Nothing Too Good for the Children."

It is truly gratifying to see the interest that is being manifested along educational lines. In making comparisons Pontotoc county is making as good record as any county in the state, and better than some. We have 8,450 school children enumerated in the county. There are 105 teachers employed. Twenty school districts have recently voted bonds to build and equip school houses. Roff has a \$20,000 building under construction; Francis is building; Allen, \$8,000 building out of native stone; Stonewall has an \$8,000 building, and now Ada has done herself proud by voting \$50,000 bonds to go into school buildings. The board of education and the people who are voting taxes for school purposes are going on record as considering "Nothing too good for the school children." In a few days two car loads of seats and desks will land in Ada direct from the school houses of the rural districts.

The bond issue in the county this year will aggregate something over \$100,000. We believe no county in the state is making a better record for the first year of statehood. We have only made a start, and I trust that we will guard with jealous care every interest regarding the educational standard of our county. T. F. PIERCE.

# How Alexander Untied the Knot.

By Herbert Kaufman.

Alexander the Great was being shown the Gordian Knot. "It can't be untied," they told him; "every man who tried to do it fell down."

But Alexander was not discouraged because the rest had flunked. He simply realized that he would have to go at it in a different way. And instead of wasting time with his fingers he drew his sword and slashed it apart.

Every day a great business general is shown some knot which has proven too much for his competitors, and he succeeds because he finds a way to cut it. The fumbler has no show so long as there is a brother merchant who doesn't waste time trying to accomplish the impossible—who takes lessons from the failures about him and avoids the methods which were their downfall.

The knottiest problems in trade are:

- 1—The problem of location.
- 2—The problem of getting the crowds.
- 3—The problem of keeping the crowds.
- 4—The problem of minimizing fixed expenses.
- 5—The problem of creating a valuable good will.

None of these knots is going to be untied by fumbling fingers. They are too complicated. They're all involved together—twisted and entangled over and about each other—so intertwined that they can't be solved singly—like the Gordian Knot they must be cut through at one stroke. And you can't cut the knot with any sword except the newspaper—because:

- 1—A store that is constantly before the people makes its own neighborhood.
- 2—Crowds can be brought from anywhere by daily advertising.
- 3—Customers can always be held by inducements.
- 4—Fixed expenses can only be reduced by increasing the volume of sales.
- 5—Good will can only be created through publicity.

Advertising is breeding new giants every year and making them more powerful every hour. Publicity is the sustaining food of a powerful store and the only strengthening nourishment for a weak one. The retailer who delays his entry into advertising must pay the penalty of his procrastination by facing more giant competitors as every month of opportunity slips by.

Personal ability as a close purchaser and as a clever seller doesn't count for a hang so long as other men are equally well posted and wear the sword of publicity to boot. They are able to tie your business into constantly closer knots, while you cannot retaliate because there is no knot which their advertising cannot cut for them.

Yesterday you lost a customer—today they took one—tomorrow they'll get another. You cannot cope with their competition because you haven't the weapon with which to oppose it. You can't untie your Gordian Knot because it can't be untied—you've got to cut it.

You must become an advertiser or you must pay the penalty of incompetence.

You not only require the newspaper to fight for a more hopeful tomorrow, but to keep today's situation from becoming hopeless.

## OKMULGEE QUIET

Okmulgee Ok Nov 16—Choking with his arms around his dead father's neck and crying piteously "please come and help me father he killed Frank Kluber 12 years of age stayed by the side of his dead parent though in instant danger of death from the hall of lead during the battle Sunday afternoon here between the negro Newt Deckard and the officers. The boys father Henry Kluber assistant chief of police of Okmulgee and two other men had been shot down on his side but he still remained oblivious to the danger until a friend rushed in and led him away from the dangerous fire of the infuriated negro.

This occurred during the sensational fight in which Newt Deckard killed four men and wounded eight others before he was himself mortally wounded and his body thrown back in the flaming ruins of the house he had barricaded himself in and had been forced out by fire.

Tonight four men are dead and eight others more or less seriously wounded as the result of an attempt to arrest Deckard who is resisting very nearly precipitating a race war. The bodies of W. L. Robertson sheriff of Okmulgee county Henry Kluber assistant chief of police Felix and R. F. Chipman are in the morgue awaiting burial while the charnel remains of the negro murderer were placed in a rude coffin and will be sent to the father who resides in Tatum county Texas. The remains of the negro are almost unrecognizable.

And through all this town of Okmulgee has proved the excellence of its citizenship in a decided tranquility on the part of both whites and negroes today there is not a circumstance to indicate a feeling over the unfortunate little of yesterday which led two of the most popular officers of the county two respected negroes and caused eight others to suffer wounds all at the hands of one desperado who was armed with drink and a he would never be taken.

## GOLS TO DEATH WITH SONG ON TIPS.

Carthage Mo Nov 16—While singing "Will There Be Any Stars in My Crown" George Workin a miner was struck on the head with a boulder at the Big Fly mines near Neek City this afternoon and died instantly.

## GOMPERS

Denver Nov 16—President Samuel Gompers at the afternoon session today of the convention of the American Federation of Labor declared that if he were found guilty and fined in the contempt proceedings against him at Washington he would go to jail before he would pay his fine or before he would allow the federation to pay any fine for him.

This statement was made by Mr. Gompers during the discussion of the report of the committee on the treasurer's report. The committee recommended that immediately following adjournment of the committee the executive committee shall take up the proposition of placing its funds where they may be removed from danger of attachment. The report brought out a political discussion in which several members declared themselves in favor of the formation of an independent political party.

## Standard Oil Prospers

New York Nov 16—Directors of the Standard Oil Company of New Jersey which is the parent of holding company of the oil combine today declared a quarterly dividend of \$10 per share. This was unchanged from the dividend paid in the corresponding quarter of last year and makes a total of \$40 in dividends to be paid this year. This has been the rate since 1904. The company has 983,383 shares outstanding.

## BRYAN GOES TO MEXICO

Dallas Tex Nov 17—Hon W J Bryan late democratic nominee for the presidency accompanied by Mrs Bryan passed through the city last night on the Katy Flyer en route to Mexico. It was thought that only a few of the local leaders were aware of the Nebraskians' movements but for some time before the train came democrats and admirers of the leader of the minority party began to assemble at the station and when Mr and Mrs Bryan stepped off the train they found it very difficult to make their way through the host of friends who pressed to greet them and shake their hands to make their way to the Katy dining hall.

## Has Lost Much Weight.

Mr Bryan looked weary. His face has a peaked aspect. He carries less weight than his Texas friends ever saw him carry. You may quote me as saying that I am glad to be back on Texas soil once more. He said to a reporter: I shall be in San Antonio tomorrow. From there I go to Corpus Christi for a few days after that to Monterey. I can not say how long I shall remain in Monterey. At present I have no plans beyond Monterey. I do not know how long I shall remain in Mexico. Texas is a great state. She did herself proud in the recent election.

## Made Demand for Speech.

While the party were at table, the crowd which continued to grow all the time until faces were pressing against the glass of the windows on the outside as thick as they could be set in the lower parts of the window frame remained silent. When Mr Bryan drew the napkin across his face and straightened up as if he were through the crowd as if it had been waiting for that moment on one called Bryan's speech and as the orator rose the crowd was changed to a gasp. Get up on a chair! Get on the table don't mind the dishes.

I have been having so much cheer since my arrival here that there is no more coming to me said Mr Bryan.

That's all right get up on the chair! was repeated by many voices. Mr Bryan mounted the chair which he had shoved back from the table and proceeded.

## Proud of Old Nebraska.

Ladies and gentlemen I think if I ever get discouraged that this would be as good a place for me to go as I could find for Texas is always faithful and I am glad to be among you. But Nebraska is not to be sneezed at this year. We are very proud of Nebraska. For some years the republicans have been circulating a report that I could not carry my home state city or precinct but they did not have time to explain that Lincoln is a very strong republican city having a majority of 1500 to 2000 and that Lancaster county is between 2500 and 3000 and because I could never get but one third of the vote they made fun of me. But this year we carried the precinct by a little more than two to one or 112 to 54 the city of Lincoln by 759 and Lancaster county by over 120 and I am prepared to declare that the republicans of Nebraska are the best I know that the republicans of Lincoln are the best in the state of Nebraska and that those in my voting precinct are the best ones in that neighborhood.

## Declines to Discuss Defeat.

I am not going to discuss the causes of this defeat, because I have not found them out myself. I am satisfied we were defeated but just how it came about I do not know. I think every member of the national campaign committee would have made affidavit the night before the election that we would carry it with a landslide and I would not impeach the integrity of them. Just what the cause of the defeat was I am not fully satisfied, and I am investigating as rapidly as I can. (Applause)

## Denver Platform Sound.

"I will say that our platform

adopted at Denver is sound and that it will be triumphant in this country and as I said before that election during the last twelve years we have been able to compel the republicans to adopt several of our ideas and I shall be very much mistaken if we do not compel them to adopt them all. I am just as content to remain a citizen as I would be if I were in the presidential chair as long as we can make them adopt our idea.

I want to thank the good people of Texas for the support they have given me and I am glad to get among them. (Applause) I am not very old and I shall come down here as often as I can and meet you unless you get out an injunction restraining me from crossing the state line.

When the time came for Mr and Mrs Bryan to make their way back to the train the jam on the platform was fiercer than when they disembarked. Mrs Bryan facetiously

Return Home.

Ada's distinguished members of the legislature with eminent chaperone, W. H. Ebey, returned from Oklahoma City, where they participated in a swell banquet in honor of the first anniversary of statehood.

Around the banquet board assembled old members of the first legislature

"Nothing Too Good for the Children."

It is truly gratifying to see the interest that is being manifested along educational lines. In making comparisons Pontotoc county is making as good record as any county in the state, and better than some.

We have 8,450 school children enumerated in the county. There are 105 teachers employed. Twenty school districts have recently voted bonds to build and equip school houses. Roff has a \$20,000 building under construction; Francis is building, Allen, \$8,000 building out of native stone. Stonewall has an \$8,000 building, and now Ada has done herself proud by voting \$50,000 bonds to go into school buildings.

The board of education and the people who are voting taxes for school purposes are going on record as considering "Nothing too good for the school children."

In a few days two car loads of seats and desks will land in Ada direct from the school houses of the rural districts.

The bond issue in the county this year will aggregate something over \$100,000. We believe no county in the state is making a better record for the first year of statehood. We have only made a start, and I trust that we will guard with jealous care every interest regarding the educational standard of our county.

IN COUNTY COURT.

State of Oklahoma, Pontotoc County.

In the Matter of the Guardianship of Abner Gipson and Eddie Gipson.

Now, on this 28th day of October, 1908, comes William Gipson, as guardian of the estate of the above named wards having filed herein his petition for the sale of the real estate of said wards for the reasons in said petition stated.

It is ordered, That said petition be and hereby is set for hearing on the 30th day of November, A. D., 1908, at 10 o'clock A. M., at which time the next of kin and all persons interested in the estate of said wards are required to appear and show cause, if any they have, why an order should not be granted for the sale of so much of the real estate of said wards as is necessary for the reasons in said petition stated, and that personal service hereof be made upon said next of kin and persons interested in the estate of said wards as required by law. It is further ordered that a copy of this order be published for three successive weeks in the Ada Weekly News of Ada, Oklahoma.

TALKS ON ADVERTISING—NO. 5

# How Alexander Untied the Knot.

By Herbert Kaufman.

Alexander the Great was being shown the Gordian Knot. "It can't be untied," they told him; "every man who tried to do it fell down."

But Alexander was not discouraged because the knot had flunked. He simply realized that he would have to go at it in a different way. And instead of wasting time with his fingers he drew his sword and slashed it apart.

Every day a great business general is shown some knot which has proven too much for his competitors, and he succeeds because he finds a way to cut it. The fumbler has no show so long as there is a brother merchant who doesn't waste time trying to accomplish the impossible—who takes lessons from the failures about him and avoids the methods which were their downfall.

The knottiest problems in trade are:

- 1—The problem of location.
- 2—The problem of getting the crowds.
- 3—The problem of keeping the crowds.
- 4—The problem of minimizing fixed expenses.
- 5—The problem of creating a valuable good will.

None of these knots is going to be untied by fumbling fingers. They are too complicated. They're all involved together—twisted and entangled over and about each other—so intertwined that they can't be solved singly—like the Gordian Knot they must be cut through at one stroke. And you can't cut the knot with any sword except the newspaper—because:

- 1—A store that is constantly before the people makes its own neighborhood.
- 2—Crowds can be brought from anywhere by daily advertising.
- 3—Customers can always be held by inducements.
- 4—Fixed expenses can only be reduced by increasing the volume of sales.
- 5—Good will can only be created through publicity.

Advertising is breeding new giants every year and making them more powerful every hour. Publicity is the sustaining food of a powerful store and the only strengthening nourishment for a weak one. The retailer who delays his entry into advertising must pay the penalty of his procrastination by facing more giant competitors as every month of opportunity slips by.

Personal ability as a close purchaser and as a clever seller doesn't count for a hang so long as other men are equally well posted and wear the sword of publicity to boot. They are able to tie your business into constantly closer knots, while you cannot retaliate because there is no knot which their advertising cannot cut for them.

Yesterday you lost a customer—today they took one—tomorrow they'll get another. You cannot cope with their competition because you haven't the weapon with which to oppose it. You can't untie your Gordian Knot because it can't be untied—you've got to cut it.

You must become an advertiser or you must pay the penalty of incompetence.

You not only require the newspaper to fight for a more hopeful tomorrow, but to keep today's situation from becoming hopeless.

## OKMULGEE QUIET

Okmulgee Ok Nov 16—Clinging with his arms around his dead father's neck and crying piteously 'please come and help me father is killed' Frank Klaber 12 years of age stayed by the side of his dead parent though in instant danger of death from the hail of lead during the battle Sunday afternoon here between the negro Newt Deckard and the officers. The boy's father Henry Klaber assistant chief of police of Okmulgee and two other men had been shot down on his side but he still remained oblivious to the danger until a friend rushed in and led him away from the dangerous fire of the infuriated negro.

This occurred during the sensational fight in which Newt Deckard killed four men and wounded eight others before he was himself mortally wounded and his body thrown back in the flaming ruins of the house he had barricaded himself in and had been forced out by fire.

Tonight four men are dead and eight others, more or less seriously wounded as the result of an attempt to arrest Deckard who is resisting very manly precipitating a race war. The bodies of W. L. Robertson sheriff of Okmulgee county, Henry Klaber assistant chief of police, Felix and R. E. Chipman are in the morgue awaiting burial while the charnel remains of the negro murderer were placed in a rude coffin and will be sent to the father who resides in Tatum county Texas. The remains of the negro are almost unrecognizable.

And through all this town of Okmulgee has proved the excellence of its citizenship in a dead calm tranquility on the part of both whites and negroes today there is not a circumstance to indicate any feeling over the unfortunate little of yesterday which had low tide of the most popular officers of the county two respected negroes and caused eight others to suffer wounds all at the hands of one desperate negro who cried with drink on his lips he would never be taken.

## GOLS TO DEATH WITH 4000 ON TIPS.

Carthage Mo Nov 16—While slugging Will There Be Any Stars In My Crown George Workman a miner was struck on the head with a boulder at the Big Fly mines near Neck City this afternoon and died instantly.

## GOMPERS

Denver Nov 16—President Samuel Gompers at the afternoon session today of the convention of the American Federation of Labor declared that if he were found guilty and fined in the contempt proceedings against him at Washington he would go to jail before he would pay his fine or before he would allow the federation to pay any fine for him.

This statement was made by Mr. Gompers during the discussion of the report of the committee on the treasurer's report. The committee recommended that immediately following adjournment of the committee the executive committee shall take up the proposition of placing its funds where they may be removed from danger of attachment. The report brought out a political discussion in which several members declared themselves in favor of the formation of an independent political party.

## Standard Oil Prospers

New York Nov 16—Directors of the Standard Oil Company of New Jersey which is the parent or holding company of the oil combine today declared a quarterly dividend of \$10 per share. This was unchanged from the dividend paid in the corresponding quarter of last year and makes a total of \$40 in dividends to be paid this year. This has been the rate since 1904. The company has 483,353 shares outstanding.

## BRYAN GOES TO MEXICO

Dallas Tex Nov 17—Hon W J Bryan late democratic nominee for the presidency accompanied by Mrs Bryan passed through the city last night on the Katy Flyer en route to Mexico. It was thought that only a few of the local leaders were aware of the Nebraskans' movements but for some time before the train came democrats and admirers of the leader of the minority party began to assemble at the station and when Mr and Mrs Bryan stepped off the train they found it very difficult to make their way through the host of friends who pressed to greet them and shake their hands to make their way to the Katy dining hall.

## Has Lost Much Weight.

Mr Bryan looked weary. His face has a peaked aspect. He carries less weight than his Texas friends ever saw him carry. You may quote me as saying that I am glad to be back on Texas soil once more. He said to a reporter I shall be in San Antonio tomorrow. From there I go to Corpus Christi for a few days after that to Monterey. I can not say how long I shall remain in Monterey. At present I have no plans beyond Monterey. I do not know how long I shall remain in Mexico. Texas is a great state. She did herself proud in the recent election.

## Make Demand for Speech.

While the party were at table, the crowd which continued to grow all the time until forces were pressing against the glass of the windows on the outside as thick as they could be set in the lower parts of the window frame remained silent. When Mr Bryan drew the napkin across his face and straightened up as if he were through the crowd as it had been waiting for that moment on one record called Bryan's Speech. Speech and as the orator rose the cry was changed to Get up on a chair! Get on the table! don't mind the dishes.

I have been having so much color since my arrival here that there is no more coming to me said Mr Bryan.

That's all right get up on the chair! was repeated by many voices. Mr Bryan mounted the chair which he had shoved back from the table and proceeded.

## Proud of Old Nebraska.

Ladies and gentlemen I think if I ever get discouraged that this would be as good a place for me to go as I could find for Texas is always faithful and I am glad to be among you. But Nebraska is not to be sneezed at this year. We are very proud of Nebraska. For some years the republicans have been circulating a report that I could not carry my home state city or precinct but they did not have time to explain that Lincoln is a very strong republican city having a majority of 1500 to 2000 and that Lancaster county is between 2000 and 3000 and because I could never get but one third of the vote they made fun of me. But this year we carried the precinct by a little more than two to one or 112 to 54 the city of Lincoln by 759 and Lancaster county by over 120 and I am prepared to declare that the republicans of Nebraska are the best I know that the republicans of Lincoln are the best in the state of Nebraska and that those in my voting precinct are the best ones in that neighborhood.

## Declines to Discuss Defeat.

I am not going to discuss the causes of this defeat, because I have not found them out myself. I am satisfied we were defeated but just how it came about I do not know. I think every member of the national campaign committee would have made affidavit the night before the election that we would carry it with a landslide and I would not impeach the integrity of them. Just what the cause of the defeat was I am not fully satisfied, and I am investigating as rapidly as I can. (Applause)

## Denver Platform Sound.

"I will say that our platform

adopted at Denver is sound and that it will be triumphant in this country and as I said before that election during the last twelve years we have been able to compel the republicans to adopt several of our ideas and I shall be very much mistaken if we do not compel them to adopt them all. I am just as content to remain a citizen as I would be if I were in the presidential chair as long as we can make them adopt our idea.

I want to thank the good people of Texas for the support they have given me and I am glad to get among them. (Applause) I am not very old and I shall come down here as often as I can and meet you unless you get out an injunction restraining me from crossing the state line.

When the time came for Mr and Mrs Bryan to make their way back to the train the jam on the platform was fiercer than when they disembarked. Mrs Bryan facetiously

## BIG SUM ON RACES.

France the Leader in Bets That Have Been Made.

Paris, Nov. 14.—According to the figures of the minister of agriculture, just published, \$62,776,180 was wagered on horse races in France last year.

Since 1891, when the bookmaking was suppressed and "pari-mutuel" betting inaugurated, the exact amount wagered is of official record as 4 per cent of the gross receipts are turned over to the state for public charity and the encouragement of breeding.

Last year this 4 per cent amounted to \$2,531,067. Of course clandestine bookmaking among the big betters still goes on, and the ministry complains that it is on the increase, as he figures for the first seven months of the current year already show a decrease of 3 1-4 million dollars in pari-mutuel receipts. He asks for more stringent legislation to prevent illegal betting.

The cost of operating the system is about 6 per cent, so that after deducting another 4 per cent for the state about 90 per cent of all the money wagered is returned to the lucky pickers of the winners.

### Wheels Industry Started.

Chicago, Ill., Nov. 16.—After having closed for more than two weeks, and previous to that time for several months running intermittently, the plate mills and the light rail plant of the Illinois Steel Company in South Chicago, this morning were reopened. Five hundred men who had been out of steady employment were thereby put to work. From an authoritative source it was learned that since the election the business of the Illinois Steel Works had increased materially in volume and that it was thought that the two plants set to work today would be kept in operation.

Read the ordinance governing occupation license published in today paper and be ready for me when I come to see you.

It isn't so difficult to strengthen a weak stomach if one goes at it correctly. And this is true of the heart and kidneys. The old fashioned way of dosing the stomach or stimulating the heart or kidneys is surely wrong! Dr. Shoop's first pointed out this error. "Go to the weak of ailing nerves of those organs," said he. Each inside organ has its controlling or "inside nerve." When these nerves fall then those organs must surely falter. This vital truth is leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. A few days test will surely tell! Sold by G. M. Ramsey 29-dw-lmo

School Bond Election.

The school bond election carried almost unanimously. This was the correct and proper thing to do. It means a greater Ada, and the educating of the children under favorable and agreeable surroundings.

This is a duty that the present generation owes to posterity.

China's Dilemma Affecting Japan.

Tokio, Nov. 16—The announcement of the death at Peking of both the emperor and the dowager empress caused a heavy fall in the stock market in Tokio, but official views are optimistic. It is generally believed that the emperor died after the dowager and some newspapers express this opinion while others assign sinister causes for the emperor's death.

A Good Home.

Return Home.

Adas distinguished members of the legislature with eminent chaperone, W. H. Ebey, returned from Oklahoma City, where they participated in a swell banquet in honor of the first anniversary of statehood. Around the banquet board assembled old members of the first legislature.

"Nothing Too Good for the Children."

It is truly gratifying to see the interest that is being manifested along educational lines. In making comparisons Pontotoc county is making as good record as any county in the state, and better than some. We have 8,450 school children enumerated in the county. There are 105 teachers employed. Twenty school districts have recently voted bonds to build and equip school houses. Roff has a \$20,000 building under construction; Francis is building, Allen, \$5,000 building out of native stone, Stonewall has an \$8,000 building, and now Ada has done herself proud by voting \$50,000 bonds to go into school buildings. The board of education and the people who are voting taxes for school purposes are going on record as considering "Nothing too good for the school children." In a few days two car loads of seats and desks will land in Ada direct from the school houses of the rural districts.

The bond issue in the county this year will aggregate something over \$100,000. We believe no county in the state is making a better record for the first year of statehood. We have only made a start, and I trust that we will guard with jealous care every interest regarding the educational standard of our country.

## How Alexander Untied the Knot.

By Herbert Kaufman.

Alexander the Great was being shown the Gordian Knot. "It can't be untied," they told him; "every man who tried to do it fell down."

But Alexander was not discouraged because the knot had flunked. He simply realized that he would have to go at it in a different way. And instead of wasting time with his fingers he drew his sword and slashed it apart.

Every day a great business general is shown some knot which has proven too much for his competitors, and he succeeds because he finds a way to cut it. The fumbler has no show so long as there is a brother merchant who doesn't waste time trying to accomplish the impossible—who takes lessons from the failures about him and avoids the methods which were their downfall.

The knottiest problems in trade are:

- 1—The problem of location.
- 2—The problem of getting the crowds.
- 3—The problem of keeping the crowds.
- 4—The problem of minimizing fixed expenses.
- 5—The problem of creating a valuable good will.

None of these knots is going to be untied by fumbling fingers. They are too complicated. They're all involved together—twisted and entangled over and about each other—so intertwined that they can't be solved singly—like the Gordian Knot they must be cut through at one stroke. And you can't cut the knot with any sword except the newspaper—because:

- 1—A store that is constantly before the people makes its own neighborhood.
- 2—Crowds can be brought from anywhere by daily advertising.
- 3—Customers can always be held by inducements.
- 4—Fixed expenses can only be reduced by increasing the volume of sales.
- 5—Good will can only be created through publicity.

Advertising is breeding new giants every year and making them more powerful every hour. Publicity is the sustaining food of a powerful store and the only strengthening nourishment for a weak one. The retailer who delays his entry into advertising must pay the penalty of his procrastination by facing more giant competitors as every month of opportunity slips by.

Personal ability as a close purchaser and as a clever seller doesn't count for a hang so long as other men are equally well posted and wear the sword of publicity to boot. They are able to tie your business into constantly closer knots, while you cannot retaliate because there is no knot which their advertising cannot cut for them.

Yesterday you lost a customer—today they took one—tomorrow they'll get another. You cannot cope with their competition because you haven't the weapon with which to oppose it. You can't untie your Gordian Knot because it can't be untied—you've got to cut it.

You must become an advertiser or you must pay the penalty of incompetence.

You not only require the newspaper to fight for a more hopeful tomorrow, but to keep today's situation from becoming hopeless.
